Our Products

Features/Benefits

temple
legal protection

We have developed a range of offerings fit for Northern Ireland. We listened to lawyers across the jurisdiction to find out exactly what would be attractive to firms and their clients.

Our ATE insurance can help clients gain access to justice. How? We can provide insurance and disbursement funding even before expert opinion is obtained. Clients with a good case but without the necessary funds will get the financial support and security they need.

Our products can help firms take on more cases. With more litigants able to pursue claims, firms will be able to run more cases which would otherwise have been abandoned due to lack of funding.

Disbursement funding can also improve a firm's cashflow because we bear and insure the cost of instructing experts and other disbursements, taking the financial burden away from the client and firm.

Key features/benefits

- Attractively priced premiums which are proportionate to the damages recovered by the client
- Cover for 50% of counsel's fees for a specified period and 100% cover thereafter
- Fully delegated authority to insure cases and run cases to trial without obtaining authority from us
- Access to disbursement funding, through Temple's own funding company
- Simple online policy issuing system for easy administration
- Incentives for mediated settlements
- Cover which extends retrospectively to costs incurred from the very start of the litigation
- Direct access to underwriters for prompt decisions on top-ups and referrals and support throughout the litigation process

Why use Temple?

Our ATE insurance and disbursement funding has been used by many leading law practices across the UK for nearly 25 years.

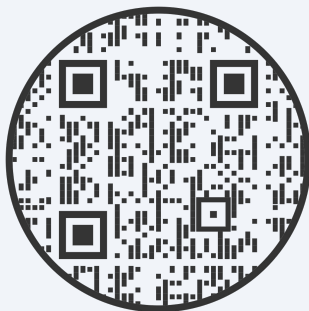

Our customer service is second to none. With your own dedicated underwriter and access to the wider team at Temple, we are always at hand to help with queries thoroughly and speedily.

We have conducted thorough research of the Northern Irish litigation market and have tailored a range of products which are bespoke to the intricacies of the jurisdiction.

If you have not used Temple ATE insurance before and are wondering how it all works then scan the QR code below to find out more.

Don't just take our word for this...

I have... found Temple to be extremely professional and easy to work with... the premiums are reasonable, and the disbursement funding loan is an extremely beneficial option to assist clients with the significant cost of funding clinical negligence litigation.

We have previously used ATE in both civil and clinical negligence litigation. The reason I wanted to work with Temple was solely based on the disbursement funding loan option which our previous ATE provider did not offer. I feel that funding issues are a main concern for all solicitors and clients in clinical negligence work.

In addition, ATE cover - but more importantly the disbursement funding loan - is certainly something that can help garner more potential client interest.

For solicitors new to ATE insurance my advice would be to focus on the disbursement funding loan side of things. ATE has been available in Northern Ireland for a long time now, but never with the benefit of a loan all 'under the same roof', to fund the case.
